Kasper

No consistent supply of LSMGO either. The MGO there doesn't meet ISO specs (flash point is lower than 60 C) .

And berth is normally not truck accessible .

No barge supply.

Bjørn,

Thanks your quick reply. What would MGO cost ex truck be in Prince Rupert?

Best regards,

Hi Kasper

There is no IFO at Prince Rupert.

Port Angeles : min volume per delivery is 250 mts.
RMG380cst : \$365-367mtw
Booming : \$2450
Barging : \$8000
Earliest delivery date currently is 4 days after booking .

Good evening,

Please assist with an indic for the following:

We might have a requirement for 2-3 trucks at 380cSt at Prince Rupert in mid March. We do not have the terminal yet but please assist us with an indic and advise if truck delivery is normally possible for a bulk carrier.

Furthermore, please assist us with an indic for bunker call only at Port Angeles, approx 200mt, and advise earliest delivery date at the moment.

Pleased to hear.

Best regards,

Kasper Kofoed-Dam
